BOMA Manitoba offers the PAC Program

Property Administrator Certificate (PAC)

To encourage property managers and assistant managers to obtain the knowledge and credentials required of a Property Manager, BOMA Manitoba will be offering the three (3) courses required for the PAC certificate.

The PAC provides you with information you need to know to in order to manage the ongoing operations and maintenance of building systems and to maximize building efficiency and cost-effectiveness. It is ideal for those who are new to the commercial real estate industry or for those who want to

upgrade their skills and distinguish themselves from the rest of the pack.

The compressed schedule will allow those companies who apply for a Job Training Grant to obtain their credentials by the end of the funding period for the program.
