Job Details

Description

If you thrive in a team-oriented workplace that challenges your skills, to drive your career development, embraces diversity and rewards innovation, with competitive pay and great employee programs, join the Ainsworth (a GDI company) team today!

Job Summary:

Install electrical control systems in new and existing buildings including retro fit projects in a construction environment. Working conditions may include restricted movement, dirty environments, hazardous materials, moderate physical duties and working at heights.

Key Responsibilities:

- Read and interpret drawings, circuit diagrams and electrical code specifications to determine wiring layouts for new and existing installations
- Cut, bend, thread and install conduits and other types of electrical conductor enclosures and fittings
- Pull wire through conduits and ceiling spaces
- Install, replace and repair electrical control equipment such as relays, temperature sensors, actuators and panels.
- Troubleshoot and isolate faults in electrical and electronic systems, remove and replace faulty components
- Splice, join and connect wire to components to form complete control systems
- Adhere to all company policies and procedures
- Perform tasks with minimal supervision and in accordance with Ainsworth Health & Safety policies and procedures
- Perform all job functions in a safe and healthful manner, abiding by and in accordance with all applicable Health, Safety and Environmental company policies and government legislation/regulations
- Participate in out-of-town projects and be available for after-hours work as required.

Qualifications:

- Main skill required, indentured apprenticeship in Manitoba (1st & 2nd Year) with conduit experience
- High School degree, diploma, or a GED equivalent qualification from a certified college
- Knowledge of electrical theory and terminology
- Experience with HVAC, building electrical systems and VFD's an asset
- Ability to read and draw simple electrical sketches and schematics

- Excellent command of the English Language, both written and oral
- Strong attention to detail, ability to execute precision work
- Commercial/ Construction installations experience
- Class 5 driver's license and clean driver's abstract

We welcome and encourage applications from candidates with Métis status as part of our commitment to diversity and inclusion.

While we appreciate all applications we receive, we advise that only candidates under consideration will be contacted.

Ainsworth, a subsidiary of GDI, is committed to building a diverse and inclusive workplace. Qualified designated group members are encouraged to apply as any reasonable accommodation of qualifications will be considered as per our Accommodation Policy, available upon request.
